

SAVINGS FOR ALL SEASONS.

SWEPCO offers a range of incentives to keep your workplace comfortable, productive, and energy efficient.

Heating and cooling equipment incentives

Heat pumps with up to 5 tons of cooling capacity that do not replace a non-electric heat source are eligible for incentives based on tonnage and SEER rating.

Equipment	Tonnage	Replacing a non-electric heat source?	Incentive
15–15.9 SEER heat pump	5 tons or less	No	\$250/ton
16–17.9 SEER heat pump	5 tons or less	No	\$400/ton
18+ SEER heat pump	5 tons or less	No	\$500/ton

Larger heat pumps and variable refrigerant flow (VRF) units, as well as air conditioners, chillers, and variable frequency drive (VFD) retrofits are eligible for incentives based on their estimated energy savings.

Equipment	Tonnage	Replacing a non-electric heat source?	Incentive
VRF, heat pump	6 tons or greater	No	\$0.28/kWh
A/C, chiller, heat pump	ALL	Yes	\$0.22/kWh
VFD retrofit	ALL	N/A	\$0.14/kWh

CoolSaver A/C Tune-ups

If your air conditioner or heat pump is older than one year and still in working order, it may benefit from our CoolSaver A/C Tune-up. Schedule yours today and a participating contractor will thoroughly clean, adjust, and optimize the unit for maximum performance and efficiency.

Benefits:

- Up to 30 percent greater cooling output and efficiency
- Longer-lasting equipment
- Lower cooling costs
- Enhanced comfort and humidity control
- SWEPCO incentives available

CoolSaver A/C Tune-up incentives

Tonnage	Incentive
1.5-3.5	\$225
4-5	\$275
6-10	\$450
11-15	\$650
16-25	\$800
26-30	\$850
31-50	\$1,400
51-80	\$2,000
80+	\$2,500

More ways to save with SWEPCO incentives

Custom-tailored incentives and point-of-sale midstream incentives are also available. See how much you could save at swepcosavings.com.
